POLISCI 102

THE SCIENCE OF POLITICS

Instructor: Adriane Fresh

Office: 281 Gross Hall

Office Hours: By appointment

Email: adriane.fresh@duke.edu or adriane@adrianefresh.com

TA: Lucy Right

Office Hours: By appointment

Email: lucille.right@duke.edu

Course Overview

Why do we call the study of politics political *science*? This course answers that question by introducing you to the systematic study of politics. Whether this is the only political science course you plan on taking, or whether you're just starting out the major, you will gain a deeper understanding of the process of studying politics scientifically, the knowledge that political scientists have gained from that study, and the puzzles and problems that remain.

To accomplish the courses' learning goals, the course will develop along two simultaneous paths. First, we will investigate substantive questions and problems in three topic areas: governance, poverty, and war. In our investigation of governance we'll ask about the distribution of democracy and autocracy, how electoral rules structure representation, and the nature of political accountability. In our investigation of poverty, we'll examine how countries redistribute wealth, why some countries do this better than others, and the

origins of growth-enhancing property rights. Finally, in our investigation of war, we'll consider states as the solution to a fundamental human problem of violence, why wars are fought instead of solved with a bargain, and whether interstate war is becoming obsolete. Students will gain a deeper understanding of why these problems exist and what might be done to address them.

Second, as we study these problems, we will introduce key concepts and methods in the field of political science. Fundamentally, students will learn how political scientists employ the scientific method—how they build theories, generate hypotheses, and test hypotheses with evidence (both quantitative and qualitative). This skill-building can be applied to the political world, and far beyond.

Students will have opportunities to apply their knowledge in several ways. They will critique scientific research; evaluate patterns in the political world and propose original theoretical answers (with associated hypotheses) to explain those patterns; and use theory and evidence from the class as a basis for making policy recommendations. The course will lay a foundation for more advanced study, and for careers in a wide variety of fields.

Learning Goals

By the end of the course, you will be able to

1. Articulate what makes the study of politics scientific.
2. Identify and differentiate *descriptive* questions about politics from *causal* questions about politics.
3. Recognize positive and normative questions and their associated arguments, and apply the relevant argument to the relevant type of question.
4. Describe the types of knowledge produced by *deductive* approaches vs. *inductive* approaches to theorizing and the ways in which these are related.
5. Evaluate a pattern in the political world and propose a theoretical explanation for why that pattern exists.
6. Structure a comparison that offers an evaluation of a relationship proposed by a theoretical argument.
7. Craft a concise argument for a policy solution to a political problem by synthesizing relevant theory and evidence, and evaluating alternative solutions.

Assignments

The following assignments are designed to help you to achieve the above learning goals, thereby deepening your abstract understanding of the scientific method as it relates to politics, and developing your ability to apply that abstract understanding to real world questions. **More information** about each assignment will be provided in class and be available under the ‘**Assignments**’ tab on Sakai.

In addition to the assignments, your grade is determined by participation that incorporates weekly reading worksheets (described in the next section).

Midterm Exam (15%)

DATE: Wednesday, March 22 during regularly scheduled class

The midterm exam will cover material in the course’s first unit, including skill building. The exam will involve multiple choice and short answer questions and allow you to demonstrate your progress on the course’s learning goals. Students should be aware that the exam will ask for significant application, synthesis and evaluation beyond simple definitions and factual memorization.

Final Exam (25%)

DATE: Tuesday, May 2, 9am-noon, Gross Hall 103

The final exam will cover all material in the course with an emphasis on the latter two units of the course (including skill building). The structure will be the same as the midterm, but slightly longer in length. The goal is to evaluate how well you have met the course’s learning goals. As with the midterm, the emphasis will be on application, synthesis and evaluation of course material, rather than definitions and factual memorization.

Theoretical Analysis Paper (20%)

DUE: Wednesday, February 15 (via Sakai ‘Assignments’)

This writing assignment provides you the opportunity to practice analyzing patterns, theorizing answers to those patterns, and suggesting implications of that theory. You will be provided with a set of patterns (plots, maps, and simple summary statistics) related to one of two topic areas: (1) the global distribution of democracy and autocracy and (2) Donald Trump’s Presidential victory in 2016. You will select a pattern that is interesting to you and describe the relationships you see. Finally, you’ll ask a causal question about why that

pattern exists. You may wish to describe how the pattern creates a puzzle given something you've learned in class, or other intuition that you might have.

Then, you will offer a theoretical answer (i.e., argument) that answers that question. You will specify the independent and dependent variables and discuss the logic that connects them. Be sure to spell out and justify any assumptions on which your causal logic depends and to explain why this logic would lead us to expect a relationship between the independent and dependent variables. Finally, you will derive implications of your argument beyond the patterns that you currently observe—that is, you will indicate a pattern (i.e., relationship) you would expect to see in the data if your theory is correct, and what patterns would lead you to doubt the validity of the hypothesis. Your final essay will be no more than 5 double-spaced pages.

Policy Memo Paper (20%)

DUE (Topic): Wednesday, April 12 (via Sakai 'Assignments')

DUE (Final Paper): Wednesday, April 26 (via Sakai 'Assignments')

This writing assignment asks you to draw on your understanding of what political science knows and how it knows it in the service of making new policy. You will select a topic from Unit 2 or 3 based on your own interests. The topic may be directly related to the class topic of a particular day (e.g., foreign aid), or depart slightly while still fitting within a given course unit. The topic should be narrow and manageable in scope. You aren't proposing a solution to global poverty in the memo. The topic must be approved prior to the due date of the policy memo.

In the context of your topic, you will select a problem and advise a government—either local, state or federal in the U.S. or in another country¹—on what they should do. You will draw on class materials *and* your own outside research. In no more than 6 double-spaced pages, your memo will use political science theory and evidence to persuade the government that the problem matters, your solution is optimal, and your proposal is feasible. Your memo will therefore link positive political knowledge to normative argumentation.

Participation (20%)

The course is structured as an *active lecture* in which student participation

¹If you choose another country, you will need to understand the political institutions and broader cultural context of your chosen country.

in discussing readings, asking questions, and probing topics of interest will be key components. Class sessions will involve lecturing, but students should not expect to be passive participants in those lectures. The success of the course will depend on the active engagement of all students in class.

Your ability to participate effectively is a function of your preparation and your conduct in class. I expect all students not only to have completed readings prior to class, but to have *thought about them* and *reflected on them*. The reading load is relatively light for this class. But in unburdening you from a large quantity of reading, I nevertheless expect your engagement with the reading that is assigned to be of the highest quality.

As a reference point, simply attending every ‘class’ merits a C grade. No joke. Simply saying one thing per class in addition, isn’t much better. This should give you a clear indication that I have extremely high expectations for participation.

Worksheets: Part of your participation grade (5 percentage points of the 20) will be determined by reading worksheets (**Assignments on Sakai**). For each set of readings, there will be a short associated worksheet to guide your reading and to help you evaluate whether you are understanding what you are reading. The worksheets are to be completed **before** the class in which we discuss the readings. Worksheets ask you to answer questions about relatively basic reading comprehension, not provide in-depth analysis. As a result, expectations are for very short answers.

I will randomly grade your questionnaires. At the beginning of each class, I’ll flip a coin—heads, you’ll turn them in and I’ll grade them; tails, I won’t.

Late Assignments

I expect assignments to be turned in on time. Assignments are due at the beginning of class on the assigned date, unless otherwise specified. Assignments will lose 1/3 of a letter grade (e.g., an assignment otherwise graded a B+ will be graded a B) for each 24 hours they are late unless we discuss in advance. Reading worksheets cannot be turned in late.

I understand, however, that life happens, and even when we have the best of intentions, unexpected circumstances may arise where we require a little grace and compassion. If you are struggling to complete a given assignment on time, **please reach out before the due date**, if at all possible, to discuss how to complete the assignment in a way that won’t affect in-class activities or cause you to fall further behind.

Grading

Letter grades will follow the standard format:

98-100 A+	88-80.9 B+	78-79.9 C+	60-70 D
93-97.9 A	83-87.9 B	73-77.9 C	below 60 D
90-92.9 A-	80-82.9 B-	70-72.9 C-	

Cultivating a Growth Mindset

With all marks—whether on individual assignments or in the course overall—I strongly encourage you take a growth mindset. A growth mindset requires that you believe that your abilities are not fixed based on some immutable notion of intelligence or talent, but are instead under your control to develop and improve through dedication and hard work. If you receive a top mark, this doesn't mean that there isn't more to do and more to learn. Similarly, if you receive a low mark, this is not a referendum on your intelligence or your potential. Instead, it is constructive feedback that is designed to help you to do better in the future.

Communication

I will use email—both independently and through Sakai—to communicate with you outside of class. I expect that you will check your email regularly and respond promptly (within 24 hours of receipt of an personally-addressed email that requires your action or acknowledgement).

Relatedly, please email me to communicate about any class topics. I pledge to respond to your email within 24 hours of receipt. Therefore, if you have a time-sensitive question related to a deadline, please plan ahead and ask your question with enough time for me to respond.

Resources

Appointments with Me

I am happy to chat with students in person or via Zoom about course materials, their projects, or academic topics more broadly. If you have a question or comment that can be addressed quickly by email, you are welcome to pose it in that format as well. Please (pretty please) check the most updated version of the syllabus before reaching out about a course policy.

Your Fellow Students

I encourage you to view your fellow students as people you can learn from *as much* as your instructor. Your fellow students are a resource not only when you are in class, but outside of class as well. While you *must* complete your own work for class assignments, you are encouraged to get feedback from students in class (or beyond, for that matter).

Mental Health

Good mental health is as important as time management and good study habits to your success, not only as a student, but in life more generally. Duke has resources that can help you learn skills to manage anxiety, stress, and more serious mental health problems. Please visit the Duke Wellness Center in person or online to find out more. I am also very happy to direct you to resources in person.

The Library

The library is not only a repository of books, periodicals, journals and other media. It also has *people* who are excited to help students with their projects. Reference librarians are one of the great untapped resources at undergraduate institutions. And yet, they can provide an extraordinary amount of assistance. If there is information that would help with your project and you aren't sure how to obtain it, talk with a reference librarian.

Honor Code

Duke is a community dedicated to scholarship, leadership, and service and to the principles of honesty, fairness, respect, and accountability. Citizens of this community commit to reflect upon and uphold these principles in all academic and nonacademic endeavors, and to protect and promote a culture of integrity.

To uphold the Duke Community Standard:

1. I will not lie, cheat, or steal in my academic endeavors;
2. I will conduct myself honorably in all my endeavors; and
3. I will act if the Standard is compromised.

For more on the Duke Community Standard, please visit:

<https://studentaffairs.duke.edu/conduct/about-us/duke-community-standard>.

Disability Accommodations

Students with disabilities have specific rights to be provided reasonable, necessary, and appropriate accommodations and have equal access to all programs and activities. If you require any accommodation for a disability and do not yet have formal documentation, please contact the Student Disability Access Office. If or when you have formal document for your accommodation, please provide that to me and the TA so that we can fulfill our obligation.

Readings

All readings, unless specifically noted, can be found under the relevant week on the course's Sakai site. Please note that I expect you to undertake the readings prior to the class session for which they are listed.

Be mindful of the relevant page numbers that you are expected to read. In order to limit your reading load, in many cases, I am only assigning a few pages from a longer text.

SCHEDULE OVERVIEW

Week	Unit	Class	Topic	Exams/Assignments
1		W 1/11	Introduction	
2		M 1/16	** MLK Holiday (No Class) **	
2	Unit 1	W 1/18	Democracy

** Final Exam: Tuesday 5/2 9am-noon, Gross Hall 103 **

SCHEDULE DETAIL

Introduction

Week 1

Class 1—Wednesday, January 11—Introduction to the Science of Politics

1. Gelman, Andrew. 2016. "Krugman wonders how the race could be close. Political science wonders how it could be otherwise." *Washington Post*, October 2: 2 pgs.
2. Sides, John, Michael Tesler, and Lynn Vavreck. "The electoral landscape of 2016." *The ANNALS of the American Academy of Political and Social Science* 667.1 (2016): 50-71.

Unit 1: Governance

Week 2

Class 1—Monday, January 16—MLK Holiday (**No Class**)

Class 2—Wednesday, January 18—Democracy

1. Przeworski, Adam, and Fernando Limongi. 1997. "Modernization: Theories and Facts." *World Politics* 49(1). **155–69, 176–79. (Skip sections III and IV, but read Appendix 1.)**
2. Brownlee, Jason. 2016. "Why Turkey's authoritarian descent shakes up democratic theory," *Washington Post*, March 23: 3 pgs.
3. Ross, Michael L. 2001. "Does Oil Hinder Democracy?" *World Politics*, 53(3). pp. 235–261.

Week 3

Class 1—Monday, January 23—Autocracy

1. Diamond, Larry. 2002. "Thinking about hybrid regimes." *Journal of Democracy*. **pp. 21-35.**
2. Gandhi, Jennifer and Przeworski (2007). "Authoritarian Institutions and the Survival of Autocrats." *Comparative Political Studies*, 40(11). **pp. 1279-1283 and 1288-1289 only.**
3. Kendall-Taylor, Andrea, and Erica Frantz. 2014. "How Autocracies Fall." *The Washington Quarterly* 37 (1). **pp. 35–40 only.**
4. Shankar, Vivek. 2022. "China Protests Break Out as Covid Cases Surge and Lockdowns Persist." *The New York Times*. 3 pgs.

Class 2—Wednesday, January 25—Skill Session: Measurement

- Kamarck, Elaine. October 26, 2021. “Voter suppression or voter expansion? What’s happening and does it matter?” <https://www.brookings.edu/blog/fixgov/2021/10/26/voter-suppression-or-voter-expansion-whats-happening-and-does-it-matter/>
- Yeoman, Barry. October 31, 2020. “N.C. police arrest at least 8, spray “pepper-based vapor” to disperse voter turnout march that included kids.” The Washington Post. <https://www.washingtonpost.com/politics/2020/10/31/graham-nc-police-voter-march/>

Week 4

Class 1—Monday, January 30—Choosing Representatives

1. Lijphart, Arend, 2012. “Electoral Systems: Majority and Plurality Methods versus Proportional Representation.” In *Patterns of Democracy: Government Forms and Performance in Thirty-Six Countries*, New Haven, CT: Yale University Press. **pp. 130-57.**
2. Rudalevige, Andrew. 2016. “The electoral college has serious problems. So do any alternatives.” *Washington Post*, November 15: 3 pgs.

Class 2—Wednesday, February 1—Making Legislation

1. Smith, Steven S., Jason M. Roberts, and Ryan J. Vander Wielen. 2015. "Introduction to the Spatial Theory of Legislating," in *The American Congress*, 9th ed., pp. 409–17, 419-20. New York: Cambridge University Press.
2. Binder, Sarah. 1999. "The Dynamics of Legislative Gridlock, 1947-96." *American Political Science Review* 93(3): **Skip hypotheses 5-8 and associated text (parts of pages 522-3), and the independent variables (parts of pages 526-7), and results related to those hypotheses (parts of pages 528-9). Skip pages 530-3**

Week 5

Class 1—Monday, February 6—Skill Session: Theorizing Political Relationships

- Johnson, Reynolds and Mycoff. *Political Science Research and Methods*. Sage Press. pp. 104-126.

Class 2—Wednesday, February 8—Holding Leaders Accountable

1. Healy, Andrew J., Neil Malhotra, and Cecilia Hyunjung Mo. 2010. “Irrelevant Events Affect Voters’ Evaluations of Government Performance.” *Proceedings of the National Academy of Sciences* 107(29): 12804-9.
2. Matthews, Dylan. 2022. “Did shark attacks eat into Woodrow Wilson’s votes in 1916?” *Vox*. <https://www.vox.com/future-perfect/23279012/shark-attack-1916-woodrow-wilson-political-science-achen-bartels-fowler>

Week 6

Class 1—Monday, February 13—Identity in Politics

1. White, Ismail K and Cheryl Laird. 2021. *Steadfast Democrats: How Social Forces Shape Black Political Behavior*. Princeton Studies in Political Behavior, 12. Princeton, NJ: Princeton University Press. **Pages 12-23 only.**
2. West, Emily A and Shanto Iyengar. 2022. “Partisanship as a Social Identity: Implications for Polarization.” *Political Behavior* 44, **pp. 807–838.**

Class 2—Wednesday, February 15—In Class Exercise

- **DUE:** Theoretical Analysis Paper.
- No readings.

Week 7

Class 1—Monday, February 20—Midterm Study Day (**NO CLASS**)

Class 2—Wednesday, February 22—MIDTERM EXAM

Unit 2: Poverty, Inequality & Redistribution

Week 8

Class 1—Monday, February 27—Inequality Within Countries

1. Shapiro, Ian. 2002. “Why the Poor Don’t Soak the Rich.” *Daedalus* 131(1): 118-128.
2. Bonica, Adam, Nolan McCarty and Howard Rosenthal. 2013. “Why Hasn’t Democracy Slowed Rising Inequality?” *Journal of Economic Perspectives* 27(3): **110-18 only**.
3. New York Times Editorial Board. 2017. “The Tax Bill That Inequality Created.” *New York Times*, December 16: 3 pgs.
4. Stepan, Alfred, and Juan J. Linz. 2011. “Comparative Perspectives on Inequality and the Quality of Democracy in the United States.” *Perspectives on Politics* 9(4): **from bottom of 842-54 only**.

Class 2—Wednesday, March 1—Ethnic Diversity and Public Goods

1. Stanford Encyclopedia of Philosophy. 2021. “Public Goods.” **Sections 1 (all sub-sections) and 2 only**. <https://plato.stanford.edu/entries/public-goods/>
2. Habyarimana, James, Macartan Humphreys, Daniel Posner, and Jeremy Weinstein. 2007. “Why Does Ethnic Diversity Undermine Public Goods Provision?” *American Political Science Review* 101(4): 709-725.

Week 9

Class 1—Monday, March 6—Inequality Between Countries

1. Sachs, Jeffrey D., Andrew D. Mellinger and John L. Gallup. 2001. "The Geography of Poverty and Wealth." *Scientific American* 284 (3): 70–75.
2. Baum, Matthew A., and David A. Lake. 2003. "The Political Economy of Growth: Democracy and Human Capital." *American Journal of Political Science* 47 (2): 333–47.

Class 2—Wednesday, March 8—Institutional Origins

1. Acemoglu, Daron. 2003. "Root Causes: A historical approach to assessing the role of institutions in economic development." *Finance Development* 40(2): 27–30.
2. North, Douglass and Barry Weingast. 1989. "Constitutions and Commitment." *Journal of Economic History*. 49(4). pp. 803-832.

Week 10

Class 1—Monday, March 13—Duke Spring Break (**NO CLASS**)

Class 2—Wednesday, March 15—Duke Spring Break (**NO CLASS**)

Week 11

Class 1—Monday, March 20—Foreign Aid

1. Duflo, Esther, and Abhijit Banerjee. "If We're Serious about Changing the World, We Need a Better Kind of Economics to Do It." *The Guardian*, October 30, 2019.
2. Alkire, Sabina, et al. "Buzzwords and Tortuous Impact Studies Won't Fix a Broken Aid System," *The Guardian*, July 16, 2018.
3. Dutta, Nabamita, Peter T. Leeson, and Claudia R. Williamson. "The Amplification Effect: Foreign Aid's Impact on Political Institutions." *Kyklos* 66, no. 2 (2013): pgs. 208-216; 222-223 ("Concluding Remarks").

Class 2—Wednesday, March 22—Skill Session: Causality and Testing

- Shively, W. Phillips. *The Craft of Political Research*. Tenth edition. New York: Routledge, Taylor Francis Group, 2017. **Pp. 77-81.**
- Ingraham, Christopher. "Low Voter Turnout Is No Accident, According to a Ranking of the Ease of Voting in All 50 States." *Washington Post*, October 22, 2018. <https://www.washingtonpost.com/business/2018/10/22/low-voter-turnout-is-no-accident-according-ranking-ease-voting-all-states/>. (2 pages).

Unit 3: Violence & War

Week 12

Class 1—Monday, March 27—The Problem of Violence

1. North, Douglass, John J. Wallis and Barry Weingast. Violence and Social Orders: A Framework for Understanding Recorded Human History. New York, NY: Cambridge University Press. **pp. 13-18 only.**
2. Robert Axelrod, "The Problem of Cooperation," in The Evolution of Cooperation. New York, NY: Basic Books, 1984. **pp. 3-24 only.**
3. Tilly, Charles. 1985. "War-Making and State-Making as Organized Crime." in Bringing the State Back In. Peter B. Evans, Dietrich Rueschemeyer and Theda Skocpol, eds. New York, NY: Cambridge University Press. **pp. 169-191.**

Class 2—Wednesday, March 29—Politics of Police

1. Soss, Joe and Vesla Weaver. 2017. "Police Are Our Government: Politics, Political Science, and the Policing of Race-Class Subjugated Communities." Annual Review of Political Science, Vol. 20. **pp. 573-578 only.**
2. Bump, Philip. 2014. "Why the police are so politically powerful." The Washington Post. 4 pgs.
3. Yanilda, Maria Gonzalez. 2022 "Reforming to Avoid Reform: Strategic Policy Substitution and the Reform Gap in Policing." Perspectives on Politics, pp. 1-19.
4. Landergan, Katherine. 2020. "The City that Really Did Abolish the Police" Politico. 6 pgs.

Week 13

Class 1—Monday, April 3—The Puzzle of War

1. Lake, David A. 2010. "Two Cheers for Bargaining Theory: Assessing Rationalist Explanations of the Iraq War." International Security 35(3): 7-52.

Class 2—Wednesday, April 5—Skill Session: Testing Relationships with Experiments

- Readings to be determined.

Week 14

Class 1—Monday, April 10—International Organizations in War

1. Beardsley, Kyle, and Holger Schmidt. 2011. "Following the Flag or Following the Charter? Examining the Determinants of UN Involvement in International Crises, 1945–2002." *International Studies Quarterly* 56(1): 33–49.
2. Fortna, Virginia Page. 2004. "Interstate Peacekeeping: Causal Mechanisms and Empirical Effects." *World Politics* 56 (04): 481–519.

Class 2—Wednesday, April 12—Mental Health Day (**No Class**)

- **DUE:** Policy memo topic.

Week 15

Class 1—Monday, April 17—Skill Session: Evidence to Recommendation

- Readings to be determined.

Class 2—Wednesday, April 19—The Future of Interstate War

1. Mueller, John. 2009. “War Has Almost Ceased to Exist: An Assessment.” *Political Science Quarterly* 124(2): 297–321.
2. Pinker, Steven. 2011. “Violence Vanquished.” *Wall Street Journal*, September 24: 7 pgs.
3. Fazal, Tanisha. 2022. “The Return of Conquest? Why the Future of Global Order Hinges on Ukraine” *Foreign Affairs*, May/June: 12 pgs.

Week 16

Class 1—Monday, April 24—Civil War

1. Fearon, James D., and David D. Laitin. 2003. “Ethnicity, Insurgency, and Civil War.” *American Political Science Review* 97(1): 75–90.
2. Cederman, L.E., Wimmer, A. and Min, B., 2010. “Why Do Ethnic Groups Rebel? New Data and Analysis.” *World Politics*, 62(01), pp. 87-119.
3. Natsios, Andrew. 2015. “Lord of the Tribes: Real Conflict in South Sudan,” Andrew Natsios. *Foreign Affairs*. <https://www.foreignaffairs.com/articles/sudan/2015-07-09/lords-tribes>

Conclusion

Class 2—Wednesday, April 26—“A Republic, If You Can Keep It”

- **DUE:** Policy Memo Paper
- No readings.
