Haiti Statistics

Poverty

- Gross national income per capita is US\$660, about half the total for Nicaragua, the second poorest country in the Americas [1]
- 78% of Haitians are poor (less than US\$2 a day), and more than half (54%) live in extreme poverty (less than US\$1 a day). [2]
- In rural areas, poverty and extreme poverty rates are estimated to be 84% and 69% respectively. [3]
- Over two-thirds of the labor force do not have formal jobs. [4]
- Life expectancy is 61 years. [5]
- Half of children under 5 are malnourished. [6]
- Over 7% of children die at birth. [7]
- For every 100,000 births, 523 women died in Haiti, compared to eight maternal deaths for every 100,000 births in Europe. [8]
- 80 out of 1,000 Haitian children never see their first birthday. [9]

Education

Enrollment:

- 50% of primary school age children are not enrolled in school. [10]
- One-third of girls over six never go to school. [11]
- More than 50% of children attending school are overaged. [12]

Retention:

- Approximately 30% of children attending primary school will not make it to third grade; 60% will abandon school before sixth grade. [13]

Quality:

- Less than 40% of non-public schools are accredited. [14]
- Only 15% of teachers at the primary level have basic teacher qualifications (including university degrees), and nearly 25% have never even attended secondary school. [15]
- Approximately 75% of all teachers lack adequate training; many have just a 9th grade or 12th grade education, with no teacher training at all. [16]
- Less than 20% of schools have electricity; 39% have potable water; 15% have a library. [17]

Cost:

- Public education represents less than 20% of enrollment, and less than 10% of schools, at the primary level. [18]
- Estimated annual school costs average US\$131 per child (including uniform,

books/materials and transportation). [19]

Literacy:

- 37.9% of the population is unable to read or write, [20] as compared to only 12% illiteracy in the rest of Latin America. [21]

Country Info

Population: 9.7 million (2007) [22]

Age structure: [23]

- 0-14 years: 38.1% (male 1,735,917/female 1,704,383)
- 15-64 years: 58.5% (male 2,621,059/female 2,665,447)
- 65 years and over: 3.4% (male 120,040/female 188,690) (2009 est.)
- Median Age: 20.2 years
